## *Borrowing Money*

GRADES  
4 to 5

TIME  
45 minutes

### OVERVIEW

This lesson introduces students to the concept of interest and invites them to consider the cost of borrowing money. Students will think critically about what motivates people to borrow money. They will also practice identifying helpful and harmful borrowing practices.

### GOALS

- Help students recognize popular forms of borrowing money
- Introduce students to the concept of interest
- Provide students with a variety of examples to inform their own borrowing choices

### OBJECTIVES

- List two forms of borrowing money: credit cards and loans
- Define interest as the price you pay for using someone else's money
- Identify and analyze responsible and irresponsible borrowing behaviors

### ASSESSMENT

An optional quiz has been provided with this lesson plan (the quiz is not factored into the lesson's 45-minute runtime).

***Did you know?** If you took all the credit cards currently in circulation and placed them end to end, the resulting chain would be long enough to wrap around the Earth approximately three and a half times!*

(*Borrowing Money*)
- 10 minutes** Go over **PRESENTATION JR4**
- 25 minutes** Facilitate **ACTIVITY**

### INSTRUCTIONS

1. Ask the class:
  - Have you ever wanted to buy something, but you didn't have enough money? What were your options?
2. Introduce the topic:
 

"Today, we're going to take a closer look at borrowing money. Borrowing money often comes with a cost. Let's watch a video to see an example of that cost."
3. Show **VIDEO JR4**
4. Go over **PRESENTATION JR4**
  - Pause after the new laptop example (slide 13) and invite students to share any pros or cons they noticed about paying for an item this way
  - Pause at slide 15 and apply each reason to the laptop example: Did you borrow money simply because you wanted the latest model? Did you borrow money because you couldn't afford it on your own? Did you borrow money because your old laptop broke and you didn't save money for repairs?
5. Facilitate the **ACTIVITY**
  - Divide students into small groups
  - Distribute the borrowing behavior cards evenly between groups

- Ask students to review their cards and determine whether the scenarios described are examples of responsible or irresponsible borrowing behavior
  - Go over the correct answers by inviting each group to read their cards out loud, to share their group's answer and to provide their reasoning
6. Wrap up by sharing the following:
    - There are many reasons why people choose to borrow money
    - People can borrow money responsibly (in a way that helps them achieve their goals) or irresponsibly (in a way that creates more financial problems)
    - Before you borrow money, it's important to think about the reason behind it and whether or not the cost of borrowing is something you can afford
  7. (Optional) Distribute **QUIZ** for individual assessment.
  8. (Optional) Distribute copies of **COMIC JR4** and **ACTIVITY SHEET JR4** for students to take home.
